

Enterprise Therapy Center

04/09/2020

To: All Patients, Friends, Families, and community,

Re: ENTERPRISE THERAPY CENTER NOW OFFERING TELEHEALTH!

We at Enterprise Therapy Center are praying that everyone stays safe and healthy through these difficult times with Covid-19. We also recommend for our patients and community to take this virus serious and to follow all guidelines and protocols set forth by our Federal and State government as well as The Alabama Department of Public Health and the CDC. Please understand that your vigilance now does make a significant impact in mitigating the spread of Covid-19 in our community! We love our community and are looking forward to the day that we will all be able to resume our normal lives. Please continue to pray for and support our Emergency Department Staff, Hospital Staff, Essential Healthcare Workers, First Responders, Police Officials, and all other Professionals and Workers that could potentially be in harms way during this time of crisis. **God is good and He will bring brighter days ahead!**

We are currently open for business and are considered an “essential healthcare business.” If you are not comfortable coming into the clinic we also have an alternative for those patients who are in need of our services. We are now offering Telehealth which can directly impact the way we treat our patients and continue to offer physical therapy care. Our Telehealth platform will allow you to access our therapists if you are not able to come into the clinic. We can use this video consultation tool for screenings, wellness check-ins, therapeutic exercises and progression, and for Initial Evaluations. We have found this process so far to be user friendly and simple for our therapists as well as our patients. Telehealth allows you to receive the same quality of care from our therapists while staying within the privacy of your own home or office.

There are no additional fees associated with Telehealth and the use of our platform is free. It is HIPPA compliant and allows you to complete your visits through a secured connection. Most insurances have recommended this for all of their patients that are unable to attend on-site physical therapy because of Covid-19. It has been very effective for us thus far and has allowed our remote patients to connect with their therapists in a user friendly, hassle free program. Our feedback thus far has been all positive! Most devices are compatible and our staff will be happy to walk you through the set up process. Most all insurances are covering Telehealth visits at this time. If you are interested in learning about Telehealth or have any questions please contact us at our office at 334-393-7500 or by email at enterprisetherapy@gmail.com or a direct message via our website at www.enterprisetherapycenter.com.

As always, we appreciate the opportunity to serve such an amazing community!

God Bless,

Allen and Brent
